Michelle Needle, M.Ed., CCC
Clinical Director

INFORMED CONSENT

Therapeutic Intervention in the Era of Covid-19

Thank you for your continued trust in our practice. As with the transmission of any communicable illness like a cold or the flu, you may be exposed to COVID-19, also known as “Coronavirus,” at any time or in any place. Rest assured that we have and will always follow the guidelines as set forth by the Cobb/Douglas Department of Public Health as well as the CDC. We will use the recommended universal personal protection and disinfection protocols to limit transmission of all illnesses in our office. Despite our careful attention to disinfection and use of personal barriers, there is still a chance that you could be exposed to an illness in our office, just as you might be at your gym, grocery store, or favorite restaurant. “Social Distancing” nationwide has reduced the transmission of the Coronavirus. Although we have taken measures to provide social distancing in our practice, due to the nature of the procedures we provide, it is not possible to maintain social distancing between the patient, parent, therapist, staff and sometimes other patients at all times.

I understand that GREATER ATLANTA SPEECH AND LANGUAGE CLINICS, INC, reserves the right to reschedule any therapy appointment to a later date should your child exhibit any characteristics of illness including but not limited to runny nose, cough, fever, shortness of breath, etc.

Although exposure is unlikely, do you accept the risk and consent to treatment?

Yes No

Patient Name

Parent/Guardian Name (if applicable)

Relation

Patient/Parent/Guardian Signature
